Asthma Policy

Help for non-English speakers

If you need help to understand the information in this policy please contact Kensington Primary School.

PURPOSE

To ensure that Kensington Primary School appropriately supports students diagnosed with asthma.

OBJECTIVE

To explain to Kensington Primary School parents/carers, staff and students the processes and procedures in place to support students diagnosed with asthma.

SCOPE

This policy applies to:

- all staff, including casual relief staff, contractors and volunteers
- all students who have been diagnosed with asthma or who may require emergency treatment for asthma and their parents/carers.

POLICY

Asthma

Asthma is a long term lung condition. People with asthma have sensitive airways in their lungs which react to triggers, causing a 'flare-up'. In a flare-up, the muscles around the airway squeeze tight, the airways swell and become narrow and there is more mucus. This makes it hard to breathe. An asthma flare-up can come on slowly (over hours, days or even weeks) or very quickly (over minutes). A sudden or severe asthma flare-up is sometimes called an asthma attack.

Symptoms

Symptoms of asthma can vary over time and often vary from person to person. The most common asthma symptoms are:

- breathlessness
- wheezing (a whistling noise from the chest)
- tight feeling in the chest
- persistent cough

Symptoms often occur at night, early in the morning or during/just after physical activity. If asthma is well controlled, a person should only have occasional asthma symptoms.

Triggers

A trigger is something that sets off or starts asthma symptoms. Everyone with asthma has different triggers. For most people with asthma, triggers are only a problem when asthma is not well controlled with medication. Common asthma triggers include:

- exercise
- smoke (cigarette smoke, wood smoke from open fires, burn-offs or bushfires)
- house dust mites
- pollens
- chemicals such as household cleaning products
- food chemicals/additives

- colds/flu
- weather changes such as thunderstorms and cold, dry air
- moulds
- animals such as cats and dogs
- deodorants (including perfumes, after-shaves, hair spray and aerosol deodorant sprays)
- certain medications (including aspirin and antiinflammatories)

laughter or emotions, such as stress

Asthma Management

If a student diagnosed with asthma enrols at Kensington Primary School:

- 1. Parents/carers must provide the school with an **Asthma Action Plan** which has been completed by the student's medical practitioner. The plan must outline:
 - the prescribed medication taken by the student and when it is to be administered, for example as a pre-medication to exercise or on a regular basis
 - · emergency contact details
 - the contact details of the student's medical practitioner
 - the student's known triggers
 - the emergency procedures to be taken in the event of an asthma flare-up or attack.
- 2. Kensington Primary School will keep copies of all Asthma Action Plans in a number of locations so that they can be accessed quickly. Locations include:
 - In a folder labelled Asthma Action Plans stored in the sick bay.
 - In the front of classroom folder
 - In individual student medication bags stored with their asthma medication in the School Office
- 3. A Student Health Support Plan may also need to be developed with parents/carers if the child has <u>severe</u> <u>asthma</u> as determined by the treating doctor. The Asthma Plan may include:
 - how the school will provide support for the student
 - identify specific strategies
 - allocate staff to assist the student

Kensington Primary School will use the Department Healthcare Needs Template for developing an Asthma Management Plan for students with severe asthma.

- 4. If a student diagnosed with asthma is going to attend a school camp or excursion, KPS parents/carers are required to provide any updated medical information.
- 5. If a student's asthma condition or treatment requirements change, parent/carers must notify the school and provide an updated Asthma Action Plan.
- 6. School staff will work with parents/carers to review Asthma Action Plans (and Student Health Support Plans) at the beginning of each year.

Student asthma kit

All students diagnosed with asthma are required to have a student asthma kit at school which contains:

- their own prescribed reliever medication labelled with the student's name
- their spacer

Each student's asthma kit is stored in an individual blue insulated medical bags on a display board near the sick bay.

Asthma emergency response plan

If a student is:

- having an asthma attack
- difficulty breathing for an unknown cause, even if they are not known to have asthma

School staff will endeavour to follow the Asthma First Aid procedures outlined in the table below. School staff may contact Triple Zero "000" at any time.

Step	Action				
1.	Sit the person upright				
	Be calm and reassuring				
	Do not leave them alone				
	Seek assistance from another staff member to locate the student's Asthma Kit				
	containing reliever, spacer and the student's Asthma Action Plan.				

	• If the student's action plan is not immediately available, use the Asthma First Aid as described in Steps 2 to 5.			
2.	Give 4 separate puffs of blue or blue/grey reliever puffer: • Shake the reliver • Use a spacer if you have one • Put 1 puff into the spacer • Take 4 breaths from the spacer Remember – Shake, 1 puff, 4 breaths			
3.	 Wait 4 minutes If there is no improvement, give 4 more separate puffs of blue/grey reliever as above (or give 1 more dose of Bricanyl or Symbiocort inhaler) 			
4.	 If there is still no improvement call Triple Zero "000" and ask for an ambulance. Tell the operator the student is having an asthma attack Keep giving 4 separate puffs every 4 minutes until emergency assistance arrives (or 1 dose of Bricanyl or Symbicort every 4 minutes – up to 3 doses of Symbicort) 			
5.	If asthma is relieved after administering Asthma First Aid, stop the treatment observe the student for at least 10 minutes. Notify the student's emergency comperson and record the incident on Compass sick bay report.			

Staff will call Triple Zero "000" immediately if:

- the person is not breathing
- if the person's asthma suddenly becomes worse or is not improving
- if the person is having an asthma attack and a reliever is not available
- if they are not sure if it is asthma
- if the person is known to have anaphylaxis

Training for staff

Kensington Primary School will arrange the following asthma management training for staff:

Staff	Completed by	Course	Provider	Cost	Valid for
Group 1 General Staff	School staff with a direct teaching role with students affected by asthma or other school staff directed by the Principal after conducting a risk assessment.	Asthma first aid management for education staff (non-accredited) One hour online training.	Asthma Australia Course: Asthma First Aid for Schools	Free to all schools	3 years
Group 2 Specific Staff	Staff working with high risk children with a history of severe asthma, or with direct student wellbeing responsibility, (including nurses, PE/sport teachers, first aid and school staff attending camp)	Course in Asthma Awareness 10760NAT OR Course in the management of Asthma Risks and Emergencies in the Workplace 22556VIC (accredited)	Any RTO that has this course in their scope of practice	Paid by Kensington Primary School	3 years

Kensington Primary School will also conduct briefings for staff on:

- the procedures outlined in this policy
- the causes, symptoms and treatment of asthma as outlined in this policy

- identities of the students diagnosed with asthma
- how to use a puffer and spacer
- the location of:
 - o the Asthma Emergency Kits
 - asthma medication which has been provided by parents for student use.

Kensington Primary School will also brief casual relief staff and volunteers who will be working with students, that they must contact the office or classroom teacher if a student is unwell. The office staff (who are also qualified first aide officers) will administer any medication required.

Asthma Emergency Kit

Kensington Primary School will provide and maintain at least two Asthma Emergency Kits. One kit will be kept in sick bay and one will be a mobile kit for activities such as:

- yard duty
- camps and excursions.

Kensington Primary School will provide an additional kit for every 300 students.

The Asthma Emergency Kit will contain:

- at least 1 blue or blue/grey reliever medication such as Airomir, Admol or Ventolin
- at least 2 spacer devices (for single person use only) to assist with effective inhalation of the blue or blue/grey reliever medication (Kensington Primary School will ensure spacers are available as replacements).
 Spacers will be stored in a dust proof container.
- clear written instructions on Asthma First Aid, including:
 - how to use the medication and spacer devices
 - o steps to be taken in treating an asthma attack
- A record of the details of an asthma first aid incident, such as the number of puffs administered, will be recorded on Compass, by the administering staff member.

The school's First Aide Officers (all level 2 qualified First Aiders) will monitor and maintain the Asthma Emergency Kits. The First Aid coordinator, Christine Cardwell, will:

- ensure all contents are maintained and replaced where necessary
- regularly check the expiry date on the canisters of the blue or blue/grey reliever puffers and place them if they
 have expired or are low on doses
- replace spacers in the Kits after each use (spacers are single-person use only)
- dispose of any previously used spacers.

The blue or blue/grey reliever medication in the Asthma Emergency Kits may be used by more than one student as long as they are used with a spacer. If the devices come into contact with someone's mouth, they will not be used again and will be replaced.

After each use of a blue or blue/grey reliever (with a spacer):

- remove the metal canister from the puffer (do not wash the canister)
- wash the plastic casing
- rinse the mouthpiece through the top and bottom under running water for at least 30 seconds
- wash the mouthpiece cover
- air dry then reassemble
- test the puffer to make sure no water remains in it, then return to the Asthma Emergency Kit.

Management of confidential medical information

Confidential medical information provided to Kensington Primary School to support a student diagnosed with asthma will be:

- recorded on the student's file
- shared with all relevant staff so that they are able to properly support students diagnosed with asthma and respond appropriately if necessary.

Communication plan

This policy will be available on Kensington Primary School's website so that parents and other members of the school community can easily access information about Kensington Primary School's asthma management procedures.

Epidemic Thunderstorm Asthma

Kensington Primary School will be prepared to act on the warnings and advice from the Department of Education and Training when the risk of epidemic thunderstorm asthma is forecast as high.

COMMUNICATION

This policy will be communicated to our school community in the following ways:

- Available on our school's website
- Included in staff induction processes and staff training
- Discussed at annual staff briefings/meetings r via the Staff Bulletin weekly email
- Referred to in transition sessions
- Discussed at parent information nights/sessions
- Reminders in our school newsletter
- Hard copy available from school administration upon request
