Introduction

Victorian government schools are not required to have local enrolment policies as they are required to follow the Department's <u>Enrolment and Admission</u> policy. Children of school age have the right to be admitted to their designated neighbourhood government school at the beginning of the school year (or when relevant) unless an approved alternative placement has been arranged.

Purpose

To ensure Kensington Primary School provides enrolment access for students who reside within its designated neighbourhood as defined by the Department boundaries and to set out the conditions under which students may be enrolled.

Guidelines

- Boundaries: The designated neighbourhood boundary area is determined by the Department and based on
 distance from other schools. All children who reside within the designated boundary area are eligible for
 enrolment at the school.
- Enrolment Criteria: To be eligible for enrolment, a child must have had their fifth birthday by April 30 in the year in which they commence school.

Implementation

- All people making enquiries regarding enrolment will be provided a copy of this policy.
- Where there are insufficient places at a school for all students who seek entry, students are enrolled in the following priority order:
 - 1. Children for whom the school is the designated neighbourhood school.
 - 2. Children with a sibling at the same permanent address who are attending the school at the same time.
 - 3. Where the regional director has restricted the enrolment, children who reside nearest the school.
 - 4. In exceptional circumstances, compassionate grounds.
- Children who reside outside the school's designated neighbourhood boundary who enquire at the school will be referred to their closest neighbourhood government school.
- Victorian government schools must refer to the Enrolment in a Victorian Government School Guidelines (refer to <u>Guidance tab https://www2.education.vic.gov.au/pal/enrolment/guidance</u>), for details on:
 - o age eligibility, including exceptions and exemptions from the maximum and minimum school age requirements and processes
 - o determining designated neighbourhood school areas and zone
 - Department policy requirements relating to placement of students (Placement Policy) and enrolment management
 - o enrolment appeal processes and requirements
 - o determining permanent residence of students and families
 - o required documentation and information when enrolling students
 - o transfers between schools
 - enrolment in specialist schools
 - o concurrent enrolment for students entering youth justice or secure welfare.

Determining permanent residence

Where demand for places exceeds supply at a Victorian government school due to the number of students who seek entry, department policy on placement of students requires schools to enrol students in accordance with a priority order of placement, subject to any enrolment criteria specified by the Minister or delegate. Please refer to the Placement policy section of these guidelines for further information on the priority order of placement.

When implementing the priority order of placement, staff may be required to implement measures to verify information provided about the students' permanent residence prior to accepting enrolment applications.

Meaning of 'permanent residence'

A student's permanent residence is the address at which they permanently reside at the time of seeking enrolment.

If a student resides at multiple addresses, their 'permanent residence' is the address at which they spend the majority of their weekdays.

If a child spends an equal amount of time at 2 addresses, both addresses will be considered their permanent address and the student will be entitled to enrol in the designated neighbourhood school for either address. The final choice of which school the student ultimately attends rests with the parents/carers or student if they are an adult or mature minor for the purpose of making enrolment decisions.

Evidence for demonstrating permanent residence

When assessing enrolment applications, schools may request that parents/carers provide supporting documentation to assist them in verifying a student's permanent residence.

Schools may request original or certified copies of rental agreements, unconditional contracts of sale or other official documentation that demonstrates permanent residence. To support this request, schools may ask parents/carers to complete a 100-point residential address check. Refer to Residential address check (PDF) included in the Enrolment Pack.

Documents should show the same address and parent's/carer's name as recorded on the school enrolment application form.

Additionally, schools may ask parents/carers to complete a statutory declaration confirming they are living at the address and that the arrangement is genuine and intended to be permanent. It is a criminal offence to make a false statutory declaration and, if made on purpose, the person making the statutory declaration is liable to penalties of perjury (refer to Statutory declarations). In the event a school receives a statutory declaration and is unsure about its validity, school staff should consult with the regional office.

Requests for additional supporting documentation may occur after the parent has submitted an enrolment application, if deemed necessary by the school. Information to parents/carers should clearly explain that the documentation is required to confirm the student's eligibility to enrol at the school. The school should also clearly communicate to parents/carers that the enrolment application may not be accepted if the requested documentation is not provided.

If it comes to light that the address provided on the application form was not the student's genuine permanent residence, a school may withdraw a placement offer under certain conditions (refer to Changes to the student's address after an enrolment offer has been made). The regional office should be informed before a placement offer is withdrawn.

To assist Kensington Primary School in assessing your child's eligibility for enrolment, please complete the attached Residential address check for the enrolment of students in Victorian government schools.

Documents should show the same address and parent's/carer's name as recorded on the school enrolment application

form.

Optional: On request, you may also be required to complete a statutory declaration. A statutory declaration should confirm the student is living in the address provided in the enrolment application and that the arrangement is intended to be permanent. The declaration must contain written acknowledgment by the declarant that it is true and correct.

Note:

Enrolment applications may not be successful if the requested documentation is not provided or found not to be genuine.

Duration of rental agreements

If a school has concerns about the duration of a rental agreement being provided as proof of permanent address, the school should consult with the family to ensure that reasonable consideration has been given to the family's living circumstances. For example, it is not acceptable to disregard a rental agreement that is shorter than 12 months from the time of submitting the enrolment application if this accurately reflects a family's residential circumstances.

If a rental agreement does not cover the first day of attendance, a school may seek further information closer to enrolment.

If the student's permanent residence changes after a placement offer is made, the offer may be withdrawn prior to the first day of attendance under certain conditions (refer to Changes to the student's address after an enrolment offer has been made).

Verification of permanent residence

Schools can make reasonable enquiries to verify permanent address information provided by parents/carers, such as:

- checking the electoral roll at an Australian Electoral Commission office or the Victorian Electoral Commission head office
- checking with a real estate agent
- for a rental property which is a studio apartment or a one-bedroom unit, checking whether there are any regulations/codes limiting the occupancy of these apartments to one person per apartment.

Schools should remember that multiple families may live together in one residence. School staff should be understanding of these arrangements when verifying permanent residence.

To satisfy privacy law requirements, schools should ensure parents/carers applying for enrolment are aware of the enquiries the school may make to verify the information provided about a student's permanent residence.

Note: The department does not consider home inspections or surveillance to be reasonable forms of enquiry and does not support these practices.

Non-acceptance of address provided on enrolment application form

If the principal does not accept that the address provided on the enrolment application form (and any subsequent supporting documentation) is the genuine permanent residence of the student, the school may reject the enrolment if the school is in a position where it is applying the priority order of placement due to demand for places exceeding supply.

The school should ensure reasons are provided to the parent/carer for not accepting the address and ensure the parent/carer is aware that they may appeal this decision (refer to Appealing enrolment decisions).

Changes to the student's address after an enrolment offer has been made

If, after a placement offer is made, the student's permanent residence changes or it comes to light that the address provided on the application form was **not the genuine** permanent residence of the student, a school may withdraw a placement offer in the following circumstances:

- where, after the priority order of placement is applied to the correct address, a place is not available for the student
- the new address is not within the school zone
- the placement offer and any subsequent material provided to the student and their parent/carer expressly states that the offer may be withdrawn prior to the first day of attendance if the student's permanent place of residence changes or the school becomes aware that the address provided on the application form was not the genuine permanent residence for the student.

Prior to withdrawing an offer of enrolment, school staff must consult with the regional office. School staff should also consider any safety or wellbeing issues related to the student.

SCHOOLS' PRIVACY POLICY

INFORMATION FOR PARENTS

The Schools' Privacy Policy informs the school community that information about students can be shared to fulfil the schools' core functions of educating and supporting our students.

The Schools' Privacy Policy establishes a clarified 'need to know' framework, where school staff share information about students with other staff who need to know as part of their role. This is consistent with Victorian privacy law.

Who does the policy apply to?

The policy applies to all central, regional and school staff including principals, teachers, visiting teachers, administration staff, social workers, wellbeing staff, youth workers, nurses, Student Support Service officers (SSSOs) and all other allied health practitioners. This means the 'need to know' framework below also applies to all school staff, whether employees, service providers (contractors) and agents (whether paid or unpaid) of the Department.

Need to know

All school staff can, and must, share information about a student with other staff who 'need to know' that information to enable the school to:

- educate the student (including to plan for individual needs or address barriers to learning)
- **support** the student's social and emotional wellbeing and health
- fulfil legal obligations, including to:
 - take reasonable steps to reduce the risk of reasonably foreseeable harm to the

- student, other students, staff or visitors (duty of care)
- make reasonable adjustments for a student's disability (anti-discrimination law)
- provide a safe and secure workplace (occupational health and safety law).

Please note: the Child and Family Violence Information Sharing Schemes allow prescribed organisations to share confidential information with each other to promote the wellbeing or safety of children, or to assess or manage family violence risk. Victorian schools and a range of other Victorian services fall under these schemes. For more information, refer to:

https://www.vic.gov.au/information-sharing-schemes-and-the-maram-framework.

Who decides who 'needs to know'?

Subject to the principal's direction, each staff member decides who needs to know specific, relevant information about a student, based on the 'need to know' framework.

Sharing relevant information with other staff who 'need to know' is very different from idle conversation or gossip.

School staff are entrusted with a large amount of important information about students. Staff must treat all such personal and health information sensitively and respectfully, and not share it other than on this 'need to know' basis.

What information and records can be transferred to a student's next school?

When a student has been accepted at, and is transferring to or from, another school (Victorian government, non-government and/or interstate), the current school transfers information about the student to the new school. This information may include copies of the student's school records, including any health, wellbeing or safety related information.

Parental consent is not required to transfer this information between Victorian government schools but must be obtained when the student is transferring to or from Victorian non-government schools, including Catholic schools or interstate schools.

Principals (or authorised representatives) determine what information to provide to the next school based on the 'need to know' framework:

What information does the next school 'need to know' to properly educate or support the student, and fulfil the school's legal obligations?

'NEED TO KNOW' framework

Duty of care

A school's duty of care to students means that a principal or other member of the leadership team needs to know about any **reasonably foreseeable risk of harm** to **anyone** because of the student's behaviour, disability, family circumstances or any other relevant circumstances related to the student.

So, for example, if there is a reasonably foreseeable risk to anyone because the student:

- displays violent behaviours
- is a victim or perpetrator of bullying, assault or age-inappropriate sexualised behaviours
- has emotional, wellbeing or self-harm issues

then staff must **tell the principal** (or other member of the school leadership team).

The principal will then share relevant information with any other staff member that needs to know because they work with, or supervise, the student. Staff must provide the principal with enough relevant information required to adequately fulfil their own duty of care — so that the principal can fulfil their duty of care too.

Importantly, when there is a reasonably foreseeable risk of harm, staff should act on that information and share the information with other staff who 'need to know', even if the student or parent asks that information not be shared.

Anti-discrimination law

A school's obligation to provide **reasonable adjustments** for students with disabilities (regardless of whether they are eligible under the Program for Students with Disabilities) means that relevant information about a student's disability

and their needs must be shared with all staff who work with or supervise that student.

This is required to enable the school to make properly informed decisions about what adjustments are reasonable, and then to implement those adjustments.

This may also be required to meet the duty of care to that student (for example, a student with a medical condition who may require treatment).

This means that relevant information must be shared with all staff who work with or supervise that student, to enable them to:

- understand the student's disability and how it affects their learning and social or emotional wellbeing
- implement reasonable adjustments at school, including understanding all recommendations made by the student's treating practitioners.

The relevant school policies are followed by school staff when engaging with parents, such as wellbeing and behaviour policies. Go to your school's website for relevant policies.

School staff are available to provide further information about school policies and handling of personal information or contact the DET Privacy Officer at privacy@education.vic.gov.au.

Residential address check

For the enrolment of students in Victorian government schools

When seeking to enrol your child in a Victorian government school, you may be requested to provide supporting documentation. This documentation will assist schools in verifying your permanent residence.

Key enrolment information

Your child is guaranteed a place at their designated neighbourhood school. You can find your designated neighbourhood school and school zone at Findmyschool.vic.gov.au

You can apply for a place at a school that is not your designated neighbourhood school and should be enrolled if the school has enough space.

Establishing a child's permanent residence

Your child's permanent residence is the address at which they permanently reside at the time of enrolment. If your child resides at multiple addresses, their permanent residence is the address at which they spend the majority of their weekdays.

Documents provided as per the 100-point residential address table should match the details recorded on the school enrolment application, including parent's/carer's name and address.

Why does the school need to verify my address for enrolment?

Some schools in Victoria are facing enrolment pressure. To ensure every child can attend their local school, schools may request proof of address to verify that you live within their school zone.

This helps to keep our education system fair and equitable and ensures that children who live within the school zone are being prioritised for enrolment.

100-point residential address check

You may be asked to provide documents to verify your child's permanent residence. Any combination of the following documents is acceptable, as long as they add up to at least 100 points.

Verification of permanent residence

When assessing your child's enrolment application, schools may make some enquiries to confirm the information provided is correct.

This can include:

- Checking the electoral roll at an Australian Electoral Commission office or the Victorian Electoral Commission head office
- Contacting your real estate agent to confirm lease or contract of sale
- Checking whether there are any regulations/codes limiting the occupancy of rented studio apartments or one-bedroom units.

Your enrolment application may be unsuccessful if the school is not able to verify your address using the documentation provided.

Inability to provide evidence of permanent residence

If you are unable to provide proof of permanent address because of your individual circumstances, you are encouraged to seek advice from your local school or a Community Liaison Officer in the Regional office.

Confidential Student Information Foundation 2026

Dear Parents/Guardians,

In order to support the transition process from kindergarten to school we ask all parents / guardians to supply us with some background information about their child. This will allow us to take as many factors as possible into account when placing children into classes. It will give individual teachers a more detailed profile of students and their needs. The information will assist the class teachers to meet the needs of the students as they settle into school. All information will be treated in a confidential manner.

Parents/Guardians are encouraged to contact the school and speak to the Assistant Principal, Julie Stephens, if they have information that they would prefer to pass on directly.

Thank you

Julie Stephens Assistant Principal

I hereby give permission for my child to participate in local excursions, which do not require transport but involve students leaving the school grounds to walk to a particular local venue, for the duration of their schooling at Kensington Primary School, providing a teacher is in charge and all reasonable care is taken to ensure student safety.

I agree that, in the event of an accident or illness during this excursion, if I cannot be contacted, the teacher in charge has permission to obtain such medical assistance as considered necessary for my child. I will accept responsibility for any costs involved. I note an excursion includes any teacher-supervised activity outside the school grounds. I understand that if I wish to withdraw local walking consent for my child, it will be my responsibility to inform the school in writing.

ICT Acceptable Use Agreement

School Profile Statement

Kensington Primary recognises the need for students to be safe and responsible users of digital technologies. We believe explicitly teaching students about safe and responsible online behaviours is essential, and is best taught in partnership with parents/guardians. We request that parents/guardians work with us and encourage this behaviour at home.

At Kensington Primary we:

- have a Student Engagement Policy that states our school's values and expected standards of student behaviour, including actions and consequences for inappropriate behaviour
- begin each year with an inquiry into cyber safety and how to be a responsible digital citizen.
- utilise age-appropriate resources, which have been viewed and sourced by KPS staff and suggested by DET
- utilise age-appropriate resources to educate our students to be safe and responsible users of digital technologies and to raise our students' awareness of issues such as online privacy, intellectual property and copyright. These may include:

Office of Children's eSafety Commissioner esafety resources

https://www.esafety.gov.au/educators/classroom-resources

Common Sense Media Digital Citizenship Education Resources

https://www.commonsense.org/education/digital-citizenship/curriculum

Allanah & Madeline Foundation Digital Licence Resources

https://www.digitallicence.com.au/

- supervise and support students when using digital technologies within the classroom and establish clear protocols and procedures when working in online spaces including reviewing and considering the safety and appropriateness of online tools and communities:
 - Bullystoppers Duty of Care and Supervision
- provide a filtered internet service but acknowledge that full protection from inappropriate content can never be guaranteed
- respond to issues or incidents that have the potential to impact on the wellbeing of our students including those reported through online services
- know that some online activities are illegal and as such we are required to report this to the appropriate authorities
- adhere strictly to age-restrictions, those websites that require the user to be above 13 will not be used (e.g. You Tube, FaceBook, Instagram, TikToc)
- support parents/guardians to understand safe and responsible use of digital technologies, potential issues and the strategies that they can implement at home to support their child; providing this Acceptable Use Agreement and current information from both the Department of Education and Training and Cybersmart:

Information for parents about Google Suite for Education

OVERVIEW:

At Kensington Primary School we believe in collaboration, timely and targeted feedback are essential to support the learning process. As part of our focus on strengthening student voice we are using G Suite for Education (GSFE) to engage authentic experiences to share across the school. GSFE allows for real-time collaboration between staff and students.

This online service is hosted by Google and is offered to schools via the Department of Education and Training (DET) under a brokered model. GSFE comprises a range of applications (see below) which allow students to collaborate simultaneously and share their work within a closed school domain that is accessible only by their peers and school staff who have DET provided identities. GSFE tools can be accessed at school and at home via a web browser.

It is intended to be used for **educational purposes only**. GSFE must be used in accordance with the school's **Acceptable Use Agreement** and not for your child's personal activities.

Safe and Responsible Student Online Behaviour (please read and discuss with your child)

When I use digital technologies and the internet I communicate respectfully by:

- always thinking and checking that what I write or post is polite and respectful
- being kind to others and thinking about how the things I do or say online might make them think or feel
- working to stop bullying. I don't send mean or bullying messages or pass them on to others
- creating and presenting my own work and if I do copy something from the internet, letting others know by sharing the website link to acknowledge the creator.

When I use digital technologies and the internet I **protect personal information** by being aware that my full name, photo, birthday, address and phone number is personal information and is not to be shared online. This means I:

- protect my friends' information in the same way
- protect my passwords and don't share them with anyone except my parent
- only ever join spaces with my parents or teacher's guidance and permission
- never answer questions online that ask for my personal information
- know not to post three or more pieces of identifiable information about myself.

When I use digital technologies and the internet I respect myself and others by thinking about what I share online. This means I:

- stop to think about what I post or share online
- use spaces or sites that are appropriate for my age and if I am not sure I ask a trusted adult for help
- protect my friends' full names, birthdays, school names, addresses and phone numbers because this is their personal information
- speak to a trusted adult if I see something that makes me feel upset or if I need help
- speak to a trusted adult if someone is unkind to me or if I know someone else is upset or scared
- don't deliberately search for something rude or violent
- turn off or close the screen if I see something I don't like and tell a trusted adult
- am careful with the equipment I use

At school I will:

- Participate actively when we are learning about responsible use of digital technologies and the internet.
- Explain ways that I can be a smart, safe and responsible user of digital technologies and the internet.

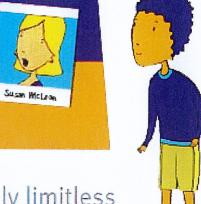

I will use this knowledge at school and everywhere I use digital technologies and the internet.

Inappropriate Content

Young people have access to a virtually limitless world so parents should be aware of the risks.

What is inappropriate content?

The internet offers young people amazing opportunities to connect and learn, but it can also expose them to content that is both age and developmentally unsuitable.

Content on the internet is not sorted into age or appropriate areas and without supervision and quidance, a child can either unintentionally or purposely find content that is sexually explicit. extremely violent or inappropriate. We know that exposure to this type of content can also be psychologically damaging.

Just as you would ensure that the books you read to your child are age appropriate and the TV shows they watch are suitably rated, you should monitor what your child is doing, and where they are going in the digital space.

Most internet users will at some stage come across confronting content online and in the majority of cases this will not cause long-term harm. Problems can arise when this exposure is constant and is not discussed with a parent who can provide a balanced view.

Some specific examples of potentially damaging content for children and teenagers include sites which encourage eating disorders or self-harm. For young people with mental health issues such as depression or an eating disorder, these sites can be damaging as they create an environment where users may normalise behaviour which is harmful (for example encouraging self-harm, or extreme calorie restrictions).

Be aware that young people can find these find these sites easily.

Most of these disturbing websites are not 'illegal' which means that they will remain online and it is up to a parent to monitor and manage. You would not feel safe allowing your child to wander aimlessly through a large city, alone and in the middle of the night so remember that the internet is like a large city, full of good and bad and a place that a child needs to be supervised.

The issues of curiosity and exploration are the same for every generation, but the internet means there is far more information which is far more easily accessible. Parents may once have looked up a 'rude' word in a dictionary-children today will Google the word instead. Rather than looking up pictures of nude bodies in a biology textbook, kids can now access pornographic content very quickly online.

What can I do to protect my child online?

The most important thing you can do is engage in open and honest communication. Use the internet together and make it part of your family's activities. The more you explore together, the more you will learn about their online behaviours and interests.
